WINTER HAVEN, FL (June 4, 2009) – The faculty and staff at CRMD is once again extremely proud to announce the 3rd Annual Florida Retina Symposium. This revolutionary symposium – the first of its kind anywhere in the country, is presented annually by The Center for Retina and Macular Disease. This creative and unique educational gathering attracts leading optometrists from around the nation.

“Beginning in 2007, it has been the mission of the founding partners at The Center for Retina and Macular Disease to provide a brilliant and dynamic educational meeting for eye care professionals worldwide. The vision is now a reality”, said Dr. David Misch, CRMD Founder. “We’ve experienced solid growth with The Florida Retina Symposium both from an attendee and sponsor perspective”.

This year’s 2009 Florida Retina Symposium is scheduled for September 25th-27th at the luxurious Ginn Reunion Resort. With “larger-than-life” accommodations, three championship golf courses, world-class dining, a luxurious spa, tennis courts, 5 pools and a water park, this location is a perfect fit for this year’s event.

The Center for Retina and Macular Disease understands the importance of educating optometrists to assist the retina specialist in identifying and managing retinal and macular disease. Their nationally renowned faculty is committed to providing a high quality, broad spectrum retinal symposium targeted specifically for the optometric community. Participating optometrists will relax, learn and play in the company of industry professionals while earning Continuing Educational Credits necessary for re-licensure.
